FIGURE 31

Action		#	Active	Category	Question	Guidance	# Subquestion
[Edit]	[Up] [Down]	1	Y	General Health Information	Version 2 question 1	Version 2 question 1	0
[Edit]	[Up] [Down]	2	Y	General Health Information	Please name any major illness or surgical procedures that the potential donor has had in the past. When (dates)?	General health information. The answer to this question may evoke memory of other medical problems in the past. If prior surgery, be sure to ask reason for procedure.	2
[Edit]	[Up] [Down]	3	Y	General Health Information	What medications, if any, did the potential donor take on a regular basis? Was the potential donor allergic to any medication?	The use of certain medications may show extent of disease process and may be used to evaluate medical suitability. If name of medication is not known, ask if they know why the patient was taking the medication. Do not make leading questions.	4
[Edit]	[Up] [Down]	4	Y	General Health Information	Did the potential donor use tobacco products? Cigarettes? Packs per day? For how long? Other tobacco products?ss	Use of tobacco products increases the incidence of cancer, cardiac and pulmonary diseases. Use may be factor in over all medical suitability.ss	3
[Edit]	[Up] [Down]	5	Y	General Health Information	Did the potential donor drink alcohol? How much? What type? How long?	The nutritional effects of alcoholism impact on the quality of tissue. If patient is a known alcoholic, be sure to get height and weight to determine if patient is anorexic or wasting.	2
[Edit]	[Up] [Down]	6	Y	General Health Information	What was the potential donor's occupation? Has the potential donor ever been exposed to toxic substances (lead, pesticides, agent orange, mercury, fluoride, asbestos, etc) which caused illness or symptoms? When? What was the diagnosis or symptoms?	Ask for current occupation and if retired from which occupation. Ask of prior Military history and when. It is important to determine if they routinely worked around toxic substances.	2
[Edit]	[Up] [Down]	7	Y	General Health Information	In the past three years has the potential donor traveled outside of the United States (except Canada)? Where? When? How long?	Will aid in determining potential exposure/diagnosis/treatment of Malaria, Chagas, CJD or other diseases.	3

I authorize any necessary diagnostic procedures; removal of blood, lymph nodes and spleen for serological testing and tissue typing purposes; and consent to release all copies of medical records and autopsy reports to the organ and tissue sharing agencies. I also authorize all donated organs and tissues to be allocated according to Louisiana State Law.

Consent Addendum

If consent has been obtained, click on the save button and you will then go onto the Medical Social Questionnaire.

Here's a brand new consent addendum that takes effect Monday September 20, 2002 at 8:00 AM.

Consent Addendum Read:

HemodilutionSpecimen Collected Date/Time: ☐ The information here differs from what was initially reported to the MTF NOCC.

Call Center Blood Volume

Transfusion/Infusion Information**Whole Blood/Red Blood Cells (in Units & cc): 48 hours prior to death or a sample collection**

Units	Amount	Type	Units	Amount	Type
		Whole Blood (WB)			Packed Red Blood Cells or Reconstituted Blood

Colloid (cc): 48 hours prior to death or sample collection

Amount	Type
	Fresh Frozen Plasma, Platelets, Cryoprecipitate
	Albumin, Plasma Protein Fraction, Plasbumin
	Dextran, Hydroxyethyl, Starches i.e., Hespan, Hetastarch
	Other:
0	Total Volume of Colloid Transfused

Crystalloid (cc): 1 hour prior to death or sample collection

Amount	Type
	Saline
	Ringer's Lactate
	Dextrose solutions
	Other:
0	Total Volume of Crystalloids Transfused

Plasma Dilution Calculations☐ The donor does not meet the criteria above.

Type	Units	Amount plasma transfused per unit	Total plasma (colloid and crystalloids)
Whole Blood (units)		X 270 =	0
Red Blood Cells (units)		X 85 =	0
Colloid (total volume)			0
Crystalloids (total volume)			0
Body Weight (kilograms)	59	/ 0.025 =	0 cc (total transfused) 2360 cc (total plasma volume)

Tissue Family Letter ----- 1 of 1

Letter Text

March 04, 2003

Dear :

Save All Print All Print Individual Close Reset

Letter Preview

March 04, 2003

Dear :

On behalf of the staff at the Louisiana Organ Procurement Agency, I would like to express my deepest sympathy to you and your family during your time of loss. I hope it gives you some comfort to know that so many people will be helped by your courageous decision to donate.

Although the loss of your , GEORGE, can never be justified, I hope the knowledge that his gift will help many people, can bring you some solace. From a donation such as the one you made, it is possible that up to fifty people may benefit from transplants that will significantly improve the quality of their lives. Though nothing can ever take GEORGE's place there
